Kshitij Dwivedi

+49-15781325235
kshitijdwivedi93@gmail.com
www.xialongli.com

Research Interests

- Neuroscience inspired computer vision, Lifelong learning in vision models

Education

PhD in Computer Science.

2020-present Goethe University of Frankfurt am Main, *Germany (moved with supervisor)*.
Supervisor: Dr. Gemma Roig .

2018–2019 Singapore University of Technology & Design, *Singapore*.
Supervisor: Dr. Gemma Roig .

M.Tech in Electrical Engineering.

2009–2014 Indian Institute of Technology, *Kanpur, India*.

B.Tech in Electrical Engineering.

2009–2014 Indian Institute of Technology, *Kanpur, India*.

Research Experience

2019– present **Visiting student**, *FU*, Berlin,Germany, Supervisor: Dr. Radoslaw Martin Cichy.
Spatial and temporal emergence of scene/object visual representations in human brain
- Decoding visual attributes of rendered images from fMRI and EEG data to gain a better understanding of visual information processing in human brain.
- Organizing team member of workshop and challenge linking computer vision and neuroscience (**Algonauts 2019**, and Algonauts 2020)

2018– present **PhD Student**, Supervisor: Dr. Gemma Roig.
Brain inspired models of computational vision
- Finding functions of regions in human visual cortex using Deep Neural Network functions. (Short version at **CCN 2019**, Short talk at **Neuromatch2.0 2020**, long version under preparation)
- Assessed the relationship between different visual tasks and its application to transfer learning (in **CVPR 2019**, **ECCV 2020**)

2017– 2017 **Research Engineer**, *ATR*, Kyoto,Japan, Supervisor: Dr. Yukiyasu Kamitani.
Reconstruction of perceived images from brain activity
- Evaluated training generative models of computer vision to reconstruct images directly from fMRI activity (in **Frontiers in Computational Neuroscience**)

2014–2017 **Senior Software Engineer**, *Samsung R&D Institute India*, Bangalore.
Development of computer vision applications for Samsung smartphone cameras
- Portrait segmentation: **US Patent granted**
- Long term object tracking: Published at IEEE SPCOM 2016
- Visual saliency detection: **1st place** in **Large Scale Scene Understanding (LSUN)** saliency challenge held in **CVPR 2016**. **Patent filed**: Suggestive zoom.

2016– 2016 **Intern**, *NCBS* , Bangalore, India, Supervisor: Dr. Vatsala Thirumalai.
Studied correlation of motor neuron activity with Purkinje neuron's activity in the zebrafish by activity localization for the Calcium images of the Purkinje neuron

2013–2014 **Master's Thesis**, *IIT Kanpur*, Kanpur, India, Supervisor: Dr. Bahniman Ghosh.
Switching Current Reduction Techniques For Magnetic Tunneling Junctions Based Magnetic RAMs

2012–2012 **Intern**, *Mercedes-Benz Research & Development North America*, Palo Alto, USA.
Worked on vehicle detection part of a project which was aimed to provide driver assistance functions

Supervision

FU Berlin **Marta Paula Balode**, *Bachelor's Thesis*.
Raphael Leuner, *Bachelor's Thesis*.

SUTD **Jiahui Huang**, *UROP*.
Zirun Wang, *Intern*.

Samsung **Aashish Kumar**, *Intern*.
Mohit Bajaj, *Intern*.

Technical Skills

Programming Python, C, C++, Matlab.

Frameworks pytorch, tensorflow, caffe, torch.

Awards

- Selected as Lead TA in Neuromatch Academy summer school, 2020
- Selected to attend Brain, Minds and Machines (BMM) summer school 2019 organized by Center of Brain, Mind and Machines
- Selected to attend International Computer Vision Summer School (ICVSS) 2019 at Sicily, Italy
- SUTD President's Graduate Fellowship (January,2018 – July,2019)
- First place in LSUN Saliency Challenge, CVPR 2016. Team name: Deepattent
- Samsung Employee of the month award for contributing to object tracking project
- Bronze award at Samsung Best Paper Award Conference 2016 for technical report describing visual saliency model, given to 8 out of 132 papers submitted by Global Multimedia Samsung R & D centers
- Best demonstration award at NIPUN 2016, an intra-Samsung competition for the demonstration of saliency and style transfer applications for smartphone cameras.
